

Romcarbon, a major plastic packaging manufacturer, becomes ARIR member

Bucharest, April 27, 2021 – The Romanian Investor Relations Association ([ARIR](#)) is delighted to announce that [Romcarbon \(BVB: ROCE\)](#) joins ARIR as Associate Member.

Romcarbon is known on the Romanian and European market as one of the most important manufacturer of plastics packaging and filtering elements. In the last decade, the company has invested in the green industry and developed one of the most modern recycling factory from Romania.

Huang Liang Neng, President of the Board of Directors and General Manager, Romcarbon:

” We are proud of the 65 years of activity of our company, period in which we have developed, innovated and continuously diversified our range of products. We have investment plans and we aim to increase the company's visibility in the capital market. We are making steps in this direction and in 2020 we started the Market Maker program to increase the liquidity of our shares. We have also implemented initiatives for proactive communication with investors. Joining ARIR community is a key element in achieving our goals. We support the sustainable development of the economy, adapt and promote the adoption of best practices in the communication with the market, corporate governance and sustainability.”

Daniela Șerban, ARIR President & Co-founder:

” The most active community of the capital market is expanding with a new valuable member, with strong principles of corporate governance. It joins our goal - to develop the capital market, with strong and transparent companies. We are glad that Romcarbon, the first company from the Standard category of the stock exchange to join ARIR, demonstrates transparency and continuous progress in the communication with investors and the market. Through ARIR projects, we address listed companies, the ones with potential to be listed, bond issuers, with the goal to highlight their potential and contribution to the economy. ”

Romcarbon is one of the major producers of plastics, packaging and filtering elements, with applicability in agriculture, automotive, construction, HORECA, food industry and others. Being the pioneer of the circular economy in Romania, since 2005 Romcarbon continues to invest in the green industry not only in its own activity, but also in Green Group, which is one of the largest industrial recycling parks in Central and South-Eastern Europe. Also from 2019, Romcarbon starts to develop biodegradable products adapted to the concept of circular economy, in line with market trends.

Romcarbon is the 28th organization to join the Romanian Investor Relations Association.
