INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Romcarbon S.A.
Buzau, Romania

Opinion

1. We have audited the consolidated financial statements of Romcarbon S.A. and its subsidiaries ("the Group"), with registered office in Buzau, Str. Transilvaniei, nr. 132, identified by unique tax registration code RO1158050, which comprise the consolidated statement of financial position as at December 31, 2017, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.
2. The consolidated financial statements as at December 31, 2017 are identified as follows:
 - Total equity RON 147,445 thousand
 - Net loss for the financial year RON 1,642 thousand
3. In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2017, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Ministry of Public Finance Order no. 2844/2016 for the approval of Accounting regulations conforming with International Financial Reporting Standards as adopted by the European Union, with subsequent amendments.

Basis for Opinion

4. We conducted our audit in accordance with International Standards on Auditing (ISAs), Regulation (EU) No. 537/2014 of the European Parliament and the Council (forth named The "Regulation") and Law 162/2017 ("the Law"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), in accordance with ethical requirements relevant for the audit of the consolidated financial statements in Romania including the Regulation and the Law and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the matter
<p>Revenue recognition</p> <p>Sale of finished goods is the main activity of the Group. Given the large number of domestic and foreign clients, the diversity of products sold as well as the diversity of the client's businesses, there is a risk that revenue is not properly and accurately recognised. That is, revenue may not be recognised in the correct accounting year, taking into account the transfer of main risks and benefits associated with the product, or may represent fictitious sales for which the delivery has not taken place, or sales towards bad debtors, that are insolvent or bankrupt. In our opinion, revenue recognition is a key audit matter, given the above mentioned points.</p> <p>Revenue is disclosed in Note 3 of the consolidated financial statements.</p>	<p>Our audit procedures performed to address the risk of material misstatement for revenue recognition included:</p> <ul style="list-style-type: none"> - evaluating the operating effectiveness of internal controls which addresses the risks described regarding occurrence of sales based on valid shipments; - assessing the proper booking of revenues in the appropriate accounting periods in accordance with the transfer of main risks and benefits for sales occurring around year-end; - tests of detail by preparing a statistical selection of clients and obtaining confirmation letters for the revenue booked in the audited period, as well as selecting individual sales to clients for which confirmation letters were not sent and obtaining the supporting documents for these transactions; - analysis of sales based on client, product and main markets in order to understand the evolution of revenue, as well as comparing sales with the figures from prior period.
<p>Investment property</p> <p>The Group owns property in Iasi, Stefanesti and Buzau which are not used for its main activity, but are held for long-term capital appreciation or for partial rent towards third parties. In our opinion, Investment property are a key audit matter, being valued at fair value subsequent to initial recognition, the gains and losses resulting from fair value estimation being recorded through profit and loss in the current period. Also, the criteria used for classification of a tangible non-current asset as an Investment property takes into account management intention to use each property as well as percentage of it being rented, both of which may vary from financial year to another. As a result, there is a risk of improper classification of these properties, as well as valuation of the investment property, as the fair value considered is a management estimate.</p> <p>Investment property is disclosed in Note 32 of the consolidated financial statements.</p>	<p>Our audit procedures performed to address the risk of material misstatement of investment property included:</p> <ul style="list-style-type: none"> - analysing the proper classification of tangible non-current assets based on investment property list and based on rent agreements in force at the audit date; - obtaining the valuation reports prepared at year-end and assessing their appropriateness also by involving our valuation experts, members of ANEVAR. Evaluate whether the gains and losses resulting from the valuation are accurately booked in accordance with international reporting standards.

Other information – Administrators' Consolidated Report

6. The administrators are responsible for preparation and presentation of the other information. The other information comprises the Administrators' consolidated report, but does not include the consolidated financial statements and our auditor's report thereon, nor the non-financial information declaration which is presented in a separate report.

Our opinion on the consolidated financial statements does not cover the other information and, unless otherwise explicitly mentioned in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements for the year ended December 31, 2017, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

With respect to the Administrators' consolidated report, we read and report if this has been prepared, in all material respects, in accordance with the provisions of Ministry of Public Finance Order 2844/2016, with subsequent amendments, for the approval of accounting regulations conforming with International Financial Reporting Standards as adopted by EU, article no. 20.

On the sole basis of the procedures performed within the audit of the consolidated financial statements, in our opinion:

- a) the information included in the Administrators' consolidated report for the financial year for which the consolidated financial statements have been prepared is consistent, in all material respects, with these consolidated financial statements;
- b) the Administrators' consolidated report has been prepared, in all material respects, in accordance with the provisions of Ministry of Public Finance Order no. 2844/2016, with subsequent amendments, for the approval of accounting regulations conforming with International Financial Reporting Standards as adopted by EU, article no. 20.

Moreover, based on our knowledge and understanding concerning the Group and its environment gained during the audit on the consolidated financial statements prepared as at December 31, 2017, we are required to report if we have identified a material misstatement of this Administrators' consolidated report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

7. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Order 2844/2016, with subsequent amendments, for the approval of accounting regulations conforming with International Financial Reporting Standards as adopted by EU and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.
8. In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
9. Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
11. As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. We have been appointed by the General Assembly of Shareholders on April 27, 2017 to audit the consolidated financial statements of Romcarbon S.A. and subsidiaries for the financial year ended December 31, 2017. The uninterrupted total duration of our commitment is 1 year, covering the financial year ended December 31, 2017.

We confirm that:

- Our audit opinion is consistent with the additional report submitted to the Audit Committee of the Group that we issued on March 26, 2018. Also, in conducting our audit, we have retained our independence from the audited entity.
- We have not provided for the Group the non-audit services referred to in Article 5(1) of EU Regulation No. 537/2014.

The engagement partner on the audit resulting in this independent auditor's report is Andreea Gheorghe.

Andreea Gheorghe, Audit Director

2. MAIN ACCOUNTING POLICIES

Statement of compliance

The consolidated financial statements were prepared in accordance with the International Financial Reporting Standards as adopted by the European Union ("IFRS") effective on the Company's reporting date, i.e. December 31, 2017 and in accordance with the provisions of Ministry of Public Finance Order no. 2844/2016 approving the Accounting regulations compliant with International Financial Reporting Standards, applicable to companies whose securities are admitted to trading on a regulated market, with subsequent amendments and clarifications. Such provisions are consistent with the requirements of the International Financial Reporting Standards adopted by the European Union.

Bases of preparation

The consolidated financial statements were prepared on a going concern basis, at historical cost, adjusted to hyperinflation as at December 31, 2003 for fixed assets, share capital and reserves.

The financial statements are prepared based on the statutory accounts kept in accordance with Romanian accounting principles, adjusted for compliance with IFRS.

The main accounting policies are described below.

Bases of consolidation

The consolidated financial statements include the financial statements of the Parent, of its subsidiaries and joint ventures. Control is obtained when the Parent has the power to govern the financing and operating policies of an entity to acquire benefits from the latter's activities.

The profit of the subsidiary acquired during the year is included in the consolidated income statement as at the acquisition date.

Where required, the subsidiary's financial statements are corrected to adjust its accounting policies in accordance with the policies used by the Parent.

All group transactions, balances, income and expenses are completely eliminated from the consolidation.

Non-controlling interests in net assets (excluding goodwill) of the subsidiary are disclosed separately from the Group's equity. Non-controlling interests consist in the sum of interests as at the date of the original business combination (see below) and the non-controlling share in changes in equity starting from the combination date. Losses corresponding to the minority, which exceed the non-controlling interest held in the subsidiary's equity are allocated as compared to the Group's interests, except if the minority holds an obligation and can make additional investments to cover losses.

Standards and Interpretations effective in the current period

The following standards, amendments to the existing standards and Interpretations issued by the International Accounting Standards Board (IASB) and adopted by the European Union are effective for the current period:

- **Amendments to IFRS 10 "Consolidated Financial Statements", IFRS 12 "Disclosure of Interests in Other Entities" and IAS 28 "Investments in Associates and Joint Ventures" - Investment Entities: Applying the Consolidation Exception** - adopted by the EU on 22 September 2016 (effective for annual periods beginning on or after 1 January 2016),

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017**

2. MAIN ACCOUNTING PRINCIPLES (continued)

- **Amendments to IFRS 11 "Joint Arrangements"** - Accounting for Acquisitions of Interests in Joint Operations - adopted by the EU on 24 November 2015 (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IAS 1 "Presentation of Financial Statements"** - Disclosure Initiative - adopted by the EU on 18 December 2015 (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IAS 16 "Property, Plant and Equipment" and IAS 38 "Intangible Assets"** - Clarification of Acceptable Methods of Depreciation and Amortisation - adopted by the EU on 2 December 2015 (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IAS 16 "Property, Plant and Equipment" and IAS 41 "Agriculture"** - Bearer Plants - adopted by the EU on 23 November 2015 (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to IAS 19 "Employee Benefits"** - Defined Benefit Plans: Employee Contributions - adopted by the EU on 17 December 2014 (effective for annual periods beginning on or after 1 February 2015),
- **Amendments to IAS 27 "Separate Financial Statements"** - Equity Method in Separate Financial Statements - adopted by the EU on 18 December 2015 (effective for annual periods beginning on or after 1 January 2016),
- **Amendments to various standards "Improvements to IFRSs (cycle 2010-2012)"** resulting from the annual improvement project of IFRS (IFRS 2, IFRS 3, IFRS 8, IFRS 13, IAS 16, IAS 24 and IAS 38) primarily with a view to removing inconsistencies and clarifying wording - adopted by the EU on 17 December 2014 (amendments are to be applied for annual periods beginning on or after 1 February 2015),
- **Amendments to various standards "Improvements to IFRSs (cycle 2012-2014)"** resulting from the annual improvement project of IFRS (IFRS 5, IFRS 7, IAS 19 and IAS 34) primarily with a view to removing inconsistencies and clarifying wording - adopted by the EU on 15 December 2015 (amendments are to be applied for annual periods beginning on or after 1 January 2016).

The adoption of these amendments to the existing standards has not led to any material changes in the Group's financial statements.

Standards and Interpretations issued by IASB and adopted by the EU, but not yet effective

At the date of authorisation of these financial statements the following standards, amendments to the existing standards and interpretations issued by IASB and adopted by the EU were in issue, but not yet effective:

- **IFRS 9 "Financial Instruments"** - adopted by the EU on 22 November 2016 (effective for annual periods beginning on or after 1 January 2018),
- **IFRS 15 "Revenue from Contracts with Customers"** and amendments to IFRS 15 "Effective date of IFRS 15" - adopted by the EU on 22 September 2016 (effective for annual periods beginning on or after 1 January 2018).

2. MAIN ACCOUNTING PRINCIPLES (continued)**Standards and Interpretations issued by IASB but not yet adopted by the EU**

At present, IFRS as adopted by the EU do not significantly differ from regulations adopted by the International Accounting Standards Board (IASB) except from the following standards, amendments to the existing standards and interpretations, which were not endorsed for use in EU as at the date of publication of financial statements (the effective dates stated below is for IFRS in full):

- **IFRS 14 "Regulatory Deferral Accounts"** (effective for annual periods beginning on or after 1 January 2016) - the European Commission has decided not to launch the endorsement process of this interim standard and to wait for the final standard,
- **IFRS 16 "Leases"** (effective for annual periods beginning on or after 1 January 2019),
- **Amendments to IFRS 2 "Share-based Payment"** - Classification and Measurement of Share-based Payment Transactions (effective for annual periods beginning on or after 1 January 2018),
- **Amendments to IFRS 4 "Insurance Contracts"** - Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts (effective for annual periods beginning on or after 1 January 2018 or when IFRS 9 "Financial Instruments" is applied first time),
- **Amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures"** - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture and further amendments (effective date deferred indefinitely until the research project on the equity method has been concluded),
- **Amendments to IFRS 15 "Revenue from Contracts with Customers"** - Clarifications to IFRS 15 Revenue from Contracts with Customers (effective for annual periods beginning on or after 1 January 2018),
- **Amendments to IAS 7 "Statement of Cash Flows"** - Disclosure Initiative (effective for annual periods beginning on or after 1 January 2017),
- **Amendments to IAS 12 "Income Taxes"** - Recognition of Deferred Tax Assets for Unrealised Losses (effective for annual periods beginning on or after 1 January 2017),
- **Amendments to IAS 40 "Investment Property"** - Transfers of Investment Property (effective for annual periods beginning on or after 1 January 2018),
- **Amendments to various standards "Improvements to IFRSs (cycle 2014-2016)"** resulting from the annual improvement project of IFRS (IFRS 1, IFRS 12 and IAS 28) primarily with a view to removing inconsistencies and clarifying wording (amendments to IFRS 12 are to be applied for annual periods beginning on or after 1 January 2017 and amendments to IFRS 1 and IAS 28 are to be applied for annual periods beginning on or after 1 January 2018),
- **IFRIC 22 "Foreign Currency Transactions and Advance Consideration"** (effective for annual periods beginning on or after 1 January 2018).

The Group anticipates that the adoption of these standards, amendments to the existing standards and interpretations will have no material impact on the financial statements of the Group in the period of initial application.

2. MAIN ACCOUNTING PRINCIPLES (continued)

At the same time, foreign exchange hedge accounting regarding the portfolio of financial assets and liabilities, whose principals have not been adopted by the EU, is still unregulated.

According to the Group's estimates, application of foreign exchange hedge accounting for the portfolio of financial assets or liabilities pursuant to IAS 39: "Financial Instruments: Recognition and Measurement", would not significantly affect the financial statements, if applied as at the balance sheet date.

More details about individual standards, amendments to existing standards and interpretations:

- **IFRS 9 "Financial Instruments"** issued on 24 July 2014 is the standard that replaces IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes requirements regarding financial instruments, in terms of recognition, classification and measurement, impairment, derecognition and general hedge accounting.

Classification and Measurement - IFRS 9 introduces new approach for the classification of financial assets, which is driven by cash flow characteristics and the business model in which an asset is held. This single, principle-based approach replaces existing rule-based requirements under IAS 39. The new model also results in a single impairment model being applied to all financial instruments.

Impairment - IFRS 9 has introduced a new, expected-loss impairment model that will require more timely recognition of expected credit losses. Specifically, the new standard requires entities to account for expected credit losses from when financial instruments are first recognized and to recognize full lifetime expected losses on a more timely basis.

Hedge accounting - IFRS 9 introduces a substantially-reformed model for hedge accounting, with enhanced disclosures about risk management activity. The new model represents a significant overhaul of hedge accounting that aligns the accounting treatment with risk management activities.

Own credit - IFRS 9 removes the volatility in profit or loss that was caused by changes in the credit risk of liabilities elected to be measured at fair value. This change in accounting means that gains caused by the deterioration of an entity's own credit risk on such liabilities are no longer recognized in profit or loss.

- **IFRS 14 "Regulatory Deferral Accounts"** issued by IASB on 30 January 2014. This standard is intended to allow entities that are first-time adopters of IFRS, and that currently recognise regulatory deferral accounts in accordance with their previous GAAP, to continue to do so upon transition to IFRS;
- **IFRS 15 "Revenue from Contracts with Customers"** issued by IASB on 28 May 2014 (on 11 September 2015 IASB deferred effective date of IFRS 15 to 1 January 2018 and on 12 April 2016 IASB made clarifications to this standard). IFRS 15 specifies how and when an IFRS reporter will recognize revenue as well as requiring such entities to provide users of financial statements with more informative, relevant disclosures. The standard supersedes IAS 18 "Revenue", IAS 11 "Construction Contracts" and a number of revenue-related interpretations. Application of the standard is mandatory for all IFRS reporters and it applies to nearly all contracts with customers: the main exceptions are leases, financial instruments and insurance contracts. The core principle of the new standard is for companies to recognize revenue to depict the transfer of goods or services to customers in amounts that reflect the consideration (that is, payment) to which the company expects to be entitled in exchange for those goods or services. The new standard will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements.

2. MAIN ACCOUNTING PRINCIPLES (continued)

- **IFRS 16 "Leases"** issued by IASB on 13 January 2016. Under IFRS 16 a lessee recognizes a right-of-use asset and a lease liability. The right-of-use asset is treated similarly to other non-financial assets and depreciated accordingly. The lease liability is initially measured at the present value of the lease payments payable over the lease term, discounted at the rate implicit in the lease if that can be readily determined. If that rate cannot be readily determined, the lessee shall use their incremental borrowing rate. As with IFRS 16's predecessor, IAS 17, lessors classify leases as operating or finance in nature. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise a lease is classified as an operating lease. For finance leases a lessor recognizes finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the net investment. A lessor recognizes operating lease payments as income on a straight-line basis or, if more representative of the pattern in which benefit from use of the underlying asset is diminished, another systematic basis.
- **Amendments to IFRS 2 "Share-based Payment" - Classification and Measurement of Share-based Payment Transactions** issued by IASB on 20 June 2016. The amendments provide requirements on the accounting for: (a) the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments; (b) share-based payment transactions with a net settlement feature for withholding tax obligations; and (c) a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.
- **Amendments to IFRS 4 "Insurance Contracts" - Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts** issued by IASB on 12 September 2016. The amendments address concerns arising from implementing the new financial instruments standard, IFRS 9, before implementing the replacement standard that the Board is developing for IFRS 4.
- **Amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture** issued by IASB on 11 September 2014 (on 17 December 2015 IASB deferred indefinitely effective date). The amendments address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business.
- **Amendments to IFRS 10 "Consolidated Financial Statements", IFRS 12 "Disclosure of Interests in Other Entities" and IAS 28 "Investments in Associates and Joint Ventures" - Investment Entities: Applying the Consolidation Exception** issued by IASB on 18 December 2014. The narrow-scope amendments to IFRS 10, IFRS 12 and IAS 28 introduce clarifications to the requirements when accounting for investment entities. The amendments also provide relief in particular circumstances.
- **Amendments to IFRS 11 "Joint Arrangements" - Accounting for Acquisitions of Interests in Joint Operations** issued by IASB on 6 May 2014. The amendments add new guidance on how to account for the acquisition of an interest in a joint operation that constitutes a business. The amendments specify the appropriate accounting treatment for such acquisitions.

2. MAIN ACCOUNTING PRINCIPLES (continued)

- **Amendments to IAS 1 "Presentation of Financial Statements" - Disclosure Initiative** issued by IASB on 18 December 2014. The amendments to IAS 1 are designed to further encourage companies to apply professional judgement in determining what information to disclose in their financial statements. For example, the amendments make clear that materiality applies to the whole of financial statements and that the inclusion of immaterial information can inhibit the usefulness of financial disclosures. Furthermore, the amendments clarify that companies should use professional judgement in determining where and in what order information is presented in the financial disclosures.
- **Amendments to IAS 7 "Statement of Cash Flows" - Disclosure Initiative** issued by IASB on 29 January 2016. The amendments are intended to clarify IAS 7 to improve information provided to users of financial statements about an entity's financing activities. The amendments require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.
- **Amendments to IAS 12 "Income Taxes" - Recognition of Deferred Tax Assets for Unrealized Losses** issued by IASB on 19 January 2016. The amendments to IAS 12 clarify how to account for deferred tax assets related to debt instruments measured at fair value.
- **Amendments to IAS 16 "Property, Plant and Equipment" and IAS 38 "Intangible Assets" - Clarification of Acceptable Methods of Depreciation and Amortization** issued by IASB on 12 May 2014. Amendments clarify that the use of revenue-based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset. Amendments also clarify that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset. This presumption, however, can be rebutted in certain limited circumstances.
- **Amendments to IAS 16 "Property, Plant and Equipment" and IAS 41 "Agriculture" - Agriculture: Bearer Plants** issued by IASB on 30 June 2014. The amendments bring bearer plants, which are used solely to grow produce, into the scope of IAS 16 so that they are accounted for in the same way as property, plant and equipment.
- **Amendments to IAS 19 "Employee Benefits" - Defined Benefit Plans: Employee Contributions** issued by IASB on 21 November 2013. The narrow scope of amendments applies to contributions from employees or third parties to defined benefit plans. The objective of the amendments is to simplify the accounting for contributions that are independent of the number of years of employee service, for example, employee contributions that are calculated according to a fixed percentage of salary.
- **Amendments to IAS 27 "Consolidated Financial Statements" - Equity Method in Separate Financial Statements** issued by IASB on 12 August 2014. The amendments reinstate the equity method as an accounting option for investments in subsidiaries, joint ventures and associates in an entity's separate financial statements.

2. MAIN ACCOUNTING PRINCIPLES (continued)

- **Amendments to IAS 40 "Investment Property"** - Transfers of Investment Property issued by IASB on 8 December 2016. The amendments state that an entity shall transfer a property to, or from, investment property when, and only when, there is evidence of a change in use. A change of use occurs if property meets, or ceases to meet, the definition of investment property. A change in management's intentions for the use of a property by itself does not constitute evidence of a change in use. Amendments also state that the list of evidence in paragraph 57 was designated as non-exhaustive list of examples instead of the previous exhaustive list.
- **Amendments to various standards "Improvements to IFRSs (cycle 2010-2012)"** issued by IASB on 12 December 2013. Amendments to various standards resulting from the annual improvement project of IFRS (IFRS 2, IFRS 3, IFRS 8, IFRS 13, IAS 16, IAS 24 and IAS 38) primarily with a view to removing inconsistencies and clarifying wording. The most important changes include new or revised requirements regarding: (i) definition of 'vesting condition'; (ii) accounting for contingent consideration in a business combination; (iii) aggregation of operating segments and reconciliation of the total of the reportable segments' assets to the entity's assets; (iv) measuring short-term receivables and payables; (v) proportionate restatement of accumulated depreciation application in revaluation method and (vi) clarification on key management personnel.
- **Amendments to various standards "Improvements to IFRSs (cycle 2012-2014)"** Issued by IASB on 25 September 2014. Amendments to various standards resulting from the annual improvement project of IFRS (IFRS 5, IFRS 7, IAS 19 and IAS 34) primarily with a view to removing inconsistencies and clarifying wording. Changes include new or revised requirements regarding: (i) changes in methods of disposal; (ii) servicing contracts; (iii) applicability of the amendments to IFRS 7 to condensed interim financial statements; (iv) discount rate: regional market issue; (v) disclosure of information 'elsewhere in the interim financial report'.
- **Amendments to various standards "Improvements to IFRSs (cycle 2014-2016)"** issued by IASB on 8 December 2016. Amendments to various standards resulting from the annual improvement project of IFRS (IFRS 1, IFRS 12 and IAS 28) primarily with a view to removing inconsistencies and clarifying wording. Changes include: (i) deletion of the short-term exemptions in paragraphs E3-E7 of IFRS 1, because they have now served their intended purpose, (ii) clarification of the scope of the IFRS 12 by specifying that the disclosure requirements in IFRS 12, except for those in paragraphs B10-B16, apply to an entity's interests listed in paragraph 5 that are classified as held for sale, as held for distribution or as discontinued operations in accordance with IFRS 5 "Non-current Assets Held for Sale and Discontinued Operations", (iii) clarification of the election to measure at fair value through profit or loss an investment in an associate or a joint venture that is held by an entity that is a venture capital organization, or other qualifying entity, is available for each investment in an associate or joint venture on an investment-by-investment basis, upon initial recognition.
- **IFRIC 22 "Foreign Currency Transactions and Advance Consideration"** issued by IASB on 8 December 2016. Interpretation states that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt.

2. MAIN ACCOUNTING PRINCIPLES (continued)**Business combination**

Acquisitions of subsidiaries and activities are accounted for using the acquisition method. The business combination cost is measured as the sum of the fair value (on the exchange date) of assigned assets, estimated or undertaken liabilities and capital instruments issued by the Group in exchange for the control of the acquired company, plus any costs directly attributable to the business combination. The acquired company's assets, liabilities and potential liabilities fulfilling the conditions to be recognized in accordance with IFRS 3 Business Combination are recognized at fair value less sale costs on the acquisition date except for assets held for sale (IFRS 5), recognized at the minimum value of net book value and fair value reduced by the sale cost.

Goodwill from acquisitions is recognized as asset and is measured initially at cost. It represents the value exceeding the acquisition cost of the Group's participating interests compared to the net fair value of recognized assets, liabilities and potential liabilities. If, further to valuation, the Group's interests in the net fair value of identifiable assets, liabilities and potential liabilities of the acquired company exceed the cost of the business combination, then the excess value is immediately recognized in the income statement. According to International Financial Reporting Standards, goodwill is reviewed at the end of each reporting period for any losses of value.

The interests of minority shareholders in the acquired company are initially measured as the minority portion of the net fair value of recognized assets, liabilities and potential liabilities.

Interests in joint ventures

The Group reports its interests in jointly controlled entities by using the pro rata consolidation method. The Group's share of the assets, liabilities, income and expenses of jointly controlled entities is combined with the equivalent elements in the consolidated financial statements, row by row.

If the Group carries out transactions with its jointly controlled entities, the unrealized profit and losses are eliminated within the limit of the Group's interests in the joint venture.

Goodwill

Goodwill arising from the acquisition of a subsidiary or a jointly controlled entity represents the value exceeding the acquisition cost of the Group's participating interests compared to the net fair value of the assets, liabilities and potential liabilities of the subsidiary or jointly controlled entity, recognized on the acquisition date. Goodwill is initially recognized as asset at cost and is subsequently measured at cost less accumulated impairment losses.

To test impairment, goodwill is allocated to each of the Group's cash generating unit that is expected to generate benefits from the synergy of the combination. Cash generating units to which goodwill has been allocated are tested for impairment on an annual basis or more often when there is indication that the unit may be subject to impairment. If the recoverable amount of the cash generating unit is lower than the unit's book value, then the impairment loss is allocated first to reduce the book value of any goodwill allocated to the unit and then to other assets of the unit, percentage based depending on the book value of each unit asset. Impairment losses recognized for goodwill are not carried forward to a subsequent period.

Upon the sale of a subsidiary or jointly controlled entity, the attributable value of goodwill is included when determining the profit or the loss upon sale.

2. MAIN ACCOUNTING PRINCIPLES (continued)

Income recognition

Income is measured at the fair value of amounts received or receivable. Income is reduced by the value of returns, commercial rebates and other similar costs.

Sale of goods

Income from sale of goods is recognized when the following conditions are met:

- The Group has transferred to the buyer all the significant risks and rewards of ownership of the goods;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The value of the income can be measured reliably.

Dividend and interest income

Income from dividends related to investments is recognized when the shareholders' right to receive them is established.

Interest income is recognized on a timely basis, by reference to the outstanding capital and the actual applicable interest rate, which is the exact discount rate of future cash received estimated throughout the life of the financial asset, within the limit of the net book value of such asset.

Lease

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are initially recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

2. MAIN ACCOUNTING POLICIES (continued)

Foreign currency transactions

The Group operates in Romania and its functional currency is the Romanian leu.

When preparing the financial statements of individual entities and the Group, transactions in currencies other than the functional currency (foreign currencies) are registered at the exchange rates prevailing at the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are translated at the rates prevailing at the balance sheet date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.

Foreign exchange differences are recognized in the profit and loss as they arise.

Costs related to long-term borrowings

Costs related to long-term borrowings directly attributable to the acquisition, construction or production of assets, which require a substantial amount of time to be used or for sale are added to the cost of such assets, until such assets are ready to be used according to their purpose or for sale.

All the other borrowing costs are recognized in the income statement as incurred.

Government subsidies

Government subsidies are not recognized until there is reasonable assurance that the Group will comply with the conditions of such subsidies and the subsidies are received.

Government subsidies whose main condition is that the Group acquire, build or otherwise obtain non-current assets are recognized as deferred income in the balance sheet and are transferred to the income statement systematically and rationally throughout the useful life of such assets.

Other Government subsidies are systematically recognized as income in the same period as the costs they are intended to offset. Government subsidies received as compensation for expenses or losses already recorded or intended to grant immediate financial support to the Group, without future related costs, are recognized in the income statement when they become due.

Employee contributions

The Group makes payments to the State budget for social insurance, pension and unemployment benefits at the rates provided by law and in force during the year, calculated based on gross salaries. The cost of these contributions is charged to the income statement in the same period as the related salary costs.

2. MAIN ACCOUNTING POLICIES (continued)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted at the balance sheet date.

Provisions for taxes and levies

As at December 31, 2017 the Group's financial statements include revaluation reserves. Based on the latest provisions of current legislation, such reserves may become taxable if their destination changed, by using them to cover accounting losses or by the Group's winding up. The Group's management considers that there is no intention to use such reserves to cover accounting losses. Nevertheless, if such reserves are used to cover losses, the Group must register an income tax liability in connection with such reserves.

Deferred tax

Deferred tax is recognized on the difference between the carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences, to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than from a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for temporary taxable differences associated with investments in subsidiaries and associates, and interests in joint ventures, except if the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from temporary deductible differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

2. MAIN ACCOUNTING POLICIES (continued)**Taxation (continued)**Deferred tax (continued)

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set them off similarly to current tax assets and liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period

Current and deferred taxes are recognized as expense or income in statement of comprehensive income, except when they relate to items credited or debited directly to equity, in which case the tax is also recognized directly in equity, or where they arise from the initial accounting for a business combination. In the case of a business combination, the tax effect is considered when calculating goodwill or when determining the excess of the acquirer's interests in the net fair value of the identifiable assets, liabilities and contingent liabilities of the acquired company on cost.

Property, plant and equipment

Land and buildings held to be used in the production or delivery of goods or services or for administrative purposes are recorded in the balance sheet at historical value adjusted to the effect of hyperinflation as at December 31, 2003, according to IAS 29 Financial Reporting in Hyperinflationary Economies less the subsequently accumulated depreciation and other losses of value.

As of December 31, 2013 the Group companies conducted a valuation of land and buildings based on a valuation report issued by a professional valuer, in order to determine the fair value thereof as at the balance sheet date. The increases in the book values of tangible assets further to valuation were credited to Revaluation reserves under Equity.

As of December 31, 2016 the Group companies conducted a revaluation of land and buildings based on a valuation report issued by a professional valuer, in order to determine the fair value thereof as at the balance sheet date. The increases in the book values of tangible assets further to valuation were credited to Revaluation reserves under Equity. The decreases in the book values were debited to Revaluation reserves under Equity up to the level previously credited and the difference was registered to profit or loss.

Gains and losses on the sale or disposal of an asset are determined as difference between income from the asset sale and their net book value. Gains and losses are recognized in the Income Statement.

The buildings' depreciation is charged to the income statement.

Assets under construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at historical cost. Depreciation of these assets, on the same basis as other tangible assets, commences when the assets are ready for their intended use.

Plant and equipment are recorded in the balance sheet at historical cost adjusted to the effect of hyperinflation as at December 31, 2003, in accordance with IAS 29 Financial Reporting in Hyperinflationary Economies less the subsequently accumulated depreciation and impairment losses.

2. MAIN ACCOUNTING POLICIES (continued)

Property, plant and equipment (continued)

Depreciation is registered so as to diminish the cost other than the cost of land and buildings under construction, throughout their estimated useful life, on a straight line basis. The estimated useful lives, residual values and depreciation method are reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis.

Losses or gains from selling or disposing a tangible asset are computed as difference between sale revenues and the net book value of the asset and are recognized in the income statement.

The following useful lives are used in the depreciation calculation:

	<u>Years</u>
Buildings	5 – 45
Plant and equipment	3 – 20
Other installations, office equipment	3 – 30
Vehicles in finance lease	5 – 6

Investment property

Investment property are properties held to earn rentals and/or for future capital appreciation. They are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment property is measured at fair value. Gains and losses arising from changes in the fair value of investment properties are included in the profit or loss in the period in which they arise.

Intangible assets

Intangible assets acquired separately

Intangible assets acquired separately are carried at cost less accumulated amortization. Amortization is calculated on a straight line basis throughout their useful life. The estimated useful life and method of amortization are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The calculation of amortization uses the following useful lives:

	<u>Years</u>
Licenses	1 – 5

Impairment of tangible and intangible assets, goodwill exclusively

At each balance sheet date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the Group estimates the recoverable amount of the asset in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation cannot be identified, tangible assets are allocated to the smallest group of cash-generating units for which a consistent and reasonable allocation basis can be identified.

2. MAIN ACCOUNTING POLICIES (continued)**Impairment of tangible and intangible assets, goodwill exclusively**

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

The recoverable amount is the higher of fair value less costs to sell and value in use. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or the cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Inventories

Inventories are stated at the lower of cost and net realizable value. Costs, including a portion corresponding to indirect fixed and variable expenses are allocated to inventories held according to the most suitable method to that class of inventory, most of them being measured using the weighted average. The net realizable value represents the estimated selling price for inventories less all estimated completion costs and costs necessary to make the sale.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive), as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

The amount recognized as provision is the best estimate of the required amount to settle the obligation at the balance sheet date, considering the risks and uncertainties related to the obligation. If a provision is measured using estimated cash flows to settle the current obligation, then the carrying value is the current value of such cash flows.

Warranties

Provisions for warranties are recognized on the selling date of the products, according to the managements' best estimate regarding the expenditure required to settle the Group's obligation.

2. MAIN ACCOUNTING POLICIES (continued)**Financial assets and liabilities**

The Group's financial assets include cash and cash equivalent, trade receivables and long-term investments. Financial liabilities include finance lease liabilities, interest bearing bank loans, overdrafts, trade liabilities and other liabilities. For each element, the accounting policies on recognition and measurement are presented in this note. The management considers that the estimated fair values of such instruments approximate their carrying values.

Borrowings are initially recognized at fair value less costs incurred with such operation. Subsequently, they are registered at amortized cost. Any difference between the entry value and the repayment value is recognized in the income statement over the borrowing term, using the effective interest method.

Financial liabilities are classified as liabilities or equity according to the substance of the contractual arrangements. Interest, dividends, gains and losses related to a financial instrument classified as debt are reported as expense or income. Distributions to equity holders are directly recorded to equity. Financial instruments are offset when the Group has a legally enforceable right to offset and intends to settle either on net basis, or to realize the asset and simultaneously write off the obligation.

The classification of investments depends on their nature and scope and is determined on the initial recognition date.

Financial assets available for sale (AFS)

Shares held in an unlisted capital instruments are classified as AFS and are registered at fair value. Gains and losses arising from changes in fair value are directly recognized in equity, in investment revaluation reserves, except for impairment losses, interest calculated using the effective interest method and gains and losses from the exchange rate of monetary assets, which are recognized directly in profit and loss. If the investment is sold or it is found impaired, then the gain or loss previously cumulated previous recognized in the investment revaluation reserve, is included in the profit and loss of the period.

Dividends from AFS capital instruments are recognized in profit and loss when the Group's right to receive them is established.

Impairment of financial assets

Financial assets, other than the ones recognized at fair value through the profit and loss account, are measured for impairment on each balance sheet date.

Financial assets are impaired when there is objective evidence that one or more of the events occurring after initial recognition have affected future cash flows related to the investment.

For shares available for sale, a significant or extended decline of the fair value of the security below its cost is considered objective evidence of impairment.

Certain categories of financial assets, such as receivables, assets evaluated as individually non-impaired, are subsequently evaluated for impairment collectively. Objective evidence for the impairment of a portfolio of receivables may include the Group's past experience in collective payments, an increase of delayed payments beyond the credit period, as well as visible changes of national and local economic conditions correlated with payment incidents regarding receivables.

2. MAIN ACCOUNTING POLICIES (continued)

Financial assets and liabilities (continued)

Impairment of financial assets (continued)

The carrying value of a financial asset is reduced by impairment loss, directly for all financial assets, except for trade receivables, in which case the carrying value is reduced by using a provision account. If a receivable is considered non-recoverable, it is eliminated and deducted from the provision. Subsequent recoverable of amounts previously eliminated are credited in the provision account. Changes in the carrying value of the provision account are recognized in the profit and loss account.

De-recognition of assets and liabilities

The Group derecognizes financial assets only when the contractual rights over cash flows related to the assets expire; or when it transfers the financial asset and substantially all risks and rewards related to the asset to another entity.

The Group derecognizes financial assets when and only when the Company's liabilities have been paid, written off or expired.

Use of estimates

The preparation of the financial information requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the end of reporting date, and the reported amounts of revenue and expenses during the reporting period. Actual results could vary from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

3. INCOME

An analysis of the Group's income for 2017 is presented below:

	Year ended December 31, 2017	Year ended December 31, 2016
	<i>thousand LEI</i>	<i>thousand LEI</i>
Income from sale of finished products	201,489	165,530
Income from sale of commodities	26,633	39,169
Income from services delivered	7,160	18,245
Other income (income from sale of semi-finished goods, residual goods, other income)	16,711	15,293
Total	251,993	238,236

3. INCOME (continued)

"**Plastics**" segment include income obtained by the Group from selling polyethylene products (agriculture foils and thermo-contractible foils, polyethylene bags of different thicknesses and sizes, covers), polypropylene products (polypropylene bags for the milling and bakery industry, the chemical industry, sugar industry, etc. and big-bags), polystyrene products (expanded polystyrene trays - standard and catering, expanded polystyrene boards for floor insulation), PVC tubes, etc.

"**Compounds – Recycled products**" segment includes income from sale of compounds and re-granulated materials made of recycled polymers and plastics compounds made of virgin polymers used by the processors of plastics products that manufacture items for various uses in the automotive industry, the electrical and household industry, furniture, constructions, pipes, packaging, etc.

Other productive sectors include the following groups of products:

- "**Materials for respiratory protection and activated coal**" include respiratory protection equipment used by the big chemical and petrochemical plants in the country as well as activated coal applied in different actions of purification of methane in the biodegradation of household waste, pit soil reclamation, retention of toxic gas from incinerators, etc.
- "**Filters**" include sales of oil, fuel and air filters for both motor vehicles and industrial use.
- "**Processed PVC**" includes products made of recycled materials used to produce traffic signs.

11. PROPERTY, PLANT AND EQUIPMENT (continued)

As at December 31, 2013 the Company revaluated tangible assets from the land and buildings category using the services of an independent valuator. The differences in value reflected in the financial statements ended December 31, 2013 amounted to LEI 29,101 thousand.

As at December 31, 2016 the Company revalued fixed assets in the category of land and buildings through an independent valuer.

Further to the revaluation, the value of the land and buildings decreased by LEI 6,536,396 (the land value decreased by LEI 6,239,033 and value of buildings and constructions decreased by RON 297,363).

The net book value of tangible assets under finance lease is LEI 973 thousand as at December 31, 2017 (LEI 6,793 thousand as at December 31, 2016).

Pledged and restricted tangible assets**ROMCARBON S.A.**

Tangible assets having a net book value of LEI 133,821 thousand as at December 31, 2017 (December 31, 2016: LEI 136,593 thousand) represent security for loans and credit lines contracted from: BRD GSG SA, UniCredit Bank and EXIMBANK SA. Some of the commercial banks issued letters of guarantee for the company's commercial partners. To issue such letters of guarantee, the company pledged fixed assets with a net book value of LEI 0 thousand as at December 31, 2017 (December 31, 2016: LEI 12,598 thousand).

Living Jumbo Industry S.A.

Tangible assets with a net book value of LEI 40,598 thousand as at December 31, 2017 (December 31, 2016: LEI 43,099 thousand) consisting of technical installations and equipment represent security for loans and credit lines contracted from BRD GSG and UniCredit Bank SA.

Guarantees granted to Group companies

ROMCARBON S.A. is guarantor in the following loans contracted by LivingJumbo Industry SA from UniCredit Bank SA as follows:

- in amount of EUR 607,200 (due in February 2024) secured by an immovable mortgage of subsequent rank over real estate located on Simileasca (DN2) ringroad, Buzau, identified by cadastral no. 59505 formerly 18740 (having a total surface area of 3,933 sq m) together with mortgage over the superficies right and the construction built by YENKI SRL SRC 22404794, holding cadastral number 59505-C1 (Land Registry no. 59505-C1) as well as over any constructions to be built on such properties, cadastral no. 67072 (having a total surface area of 33,436 sq m); cadastral no. 67075 (having a total surface area of 970 sq m) and cadastral no. 59507 formerly 18742 (having a total surface area of 70,231 sq m) located on Simileasca (DN2) ringroad, Buzau. As at December 31, 2017 the net book value of such real estate is LEI 10,745,466, and on real estate located in Iasi, Calea Chisinaului, nr. 29 identified by cadastral no. 148536 (having a total surface area of 8,103 sq m) having a net book value of as at December 31, 2017 of LEI 3,059,838;
- non-binding loan - cash line - in amount of EUR 450,000 (due in February 2024) secured by mortgage on tangible assets in the form of inventories at a value of maximum EUR 1,500,000.

Total	36,237	29,728
	Year ended December 31, 2017	Year ended December 31, 2016
	<i>thousand LEI</i>	<i>thousand LEI</i>
Changes of allowance for doubtful clients		
Balance at the beginning of the year	2,568	2,498
Receivables transferred to expenses during the year	166	248
Decrease of allowance recognized in profit and loss	(327)	(160)
Balance at the end of the year	2,407	2,586

When determining the recoverability of a receivable, the Group takes into account any change in the receivable's crediting capacity from the date the loan was granted, until the reporting date. The level of credit risk is limited given that the client basis is large and the client portfolio is diverse. Therefore, the Group's management considers that there is no need for an additional provision exceeding the allowance for doubtful debts.

According to the existing loan contracts, the Group companies are subject to certain restrictive conditions. Such conditions require the companies, inter alia, to maintain certain financial covenants including the DSCR ratio, total financial liabilities/ EBITDA, financial liabilities, current liquidity and net financial assets to equity.

In November 2016, the bank communicated the group companies that it would suspend the revision of the contractual financial covenants until the completion of the financial statements. The group companies obtained as at the approval date of the separate financial statements a letter from the bank stipulating that the Company was not in breach of the contractual provisions and it would not demand the early repayment of the loans made available.

As at December 31, 2017 the group companies did not meet covenant "Total net financial liabilities/EBITDA" either separately, or jointly, or covenant "Coverage of debt service". In this respect, the Group obtained as at the approval date of the consolidated financial statements a letter from the bank stipulating that the contractual provisions were not breached and it would not demand the early repayment of the loans made available

As at December 31, 2017, the Group had more loans contracted from various banks, the most important of which are presented below.

22. BORROWINGS (continued)**Romcarbon S.A. borrowings****a) credit line contracted from UniCredit Bank SA in amount of EUR 5,450,000**

In 2017, sundry debtors include LEI 1,557 thousand, which represents borrowings from natural person shareholders, which will be repaid in 2018 (see note 28).

25. FINANCE LEASE OBLIGATIONS

Lease contracts

Finance leases refer to vehicles leased for 5-6 years' term. The Group has the option to purchase the equipment for a nominal amount at the end of the contractual terms. The Group's finance lease obligations are secured by the lessee's ownership right over the assets.

Finance lease liabilities

26. OTHER LONG-TERM LIABILITIES

As at December 31, 2016 the value of investment subsidies received from the Group amounts to LEI 39,149 thousand, as follows:

Romcarbon SA:	LEI 22,204 thousand
LivingJumbo Industry SA:	LEI 16,945 thousand

Non-refundable amounts in the form of investment subsidies are transferred to income together with the monthly amortization.

As at December 31, 2017 the value of investment subsidies received from the Group amounts to LEI 35,232 thousand, as follows:

Romcarbon SA:	LEI 19,940 thousand
LivingJumbo Industry SA:	LEI 15,259 thousand
Project Advice SRL:	LEI 33 thousand

27. FINANCIAL INSTRUMENTS**(a) Capital risk management**

The Group manages its capital to ensure that Group entities will be able to continue as a going concern while maximizing revenues for shareholders, by optimizing the debt and equity balance.

The Company's capital consists of liabilities, which include the borrowings presented in note 22, cash and cash equivalent and equity attributable to the company. Equity comprises the share capital, reserves and retained earnings as presented in notes 18, 19 and 20.

The management of the Group's risk also consists in a regular review of the capital structure. As part of this review, the management takes into account the cost of capital and risks associated with each class of capital. Based on the management's recommendations, the Group will balance the general structure of its capital by dividend payment, issuance of new shares and redemption of shares, as well as by contracting new debts or settling existing debts.

(b) Main accounting policies

Details of the main accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 2 to the financial statements.

(c) Objectives of financial risk management

The Group's treasury function supplies services necessary to the business, coordinates access to national and international financial market, monitors and manages financial risk related to the Group's operations through reports on internal risks, analysing exposure by the degree and extent of risks. Such risks include market risk (including currency risk, fair value interest rate risk and price risk), credit risk, liquidity risk and cash flow interest rate risk.

(d) Market risk

The Group's activities expose it firstly to financial risks regarding the fluctuation of the foreign exchange rate (see (e) below) and interest rate (see (f) below).

There has been no change in the Group's exposure to market risks or in the manner the Group manages and measures risks.

(e) Currency risk management

The Group undertakes transactions denominated in various foreign currencies. Hence, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policies.

This is a free translation from the original Romanian version.

27. FINANCIAL INSTRUMENTS (continued)

(f) Interest rate risk management

The Group is exposed to interest rate risk given that Group entities borrow funds both at fixed and at variable interest. The risk is managed by the Group by maintaining a balance between fixed rate and variable rate borrowings.

The Group's exposures to interest rates over financial assets are presented in the section regarding liquidity risk management under this note.

(g) Other risks regarding prices

The Group is exposed to risks related to equity, arising from equity investments. Equity investments are held for strategic purposes rather than commercial purposes. The Group does not actively trade such investments.

(h) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The management monitors the Group's exposure and the credit ratings of its contractual counterparties.

Trade receivables consist of a large number of clients from various industries and geographical areas. Credits are constantly assessed as regards the clients' financial status and, if applicable, credit insurance is concluded.

The Group does not have any significant credit risk exposure towards any counterparty or any group of similar counterparties. The Group defines counterparties as having similar characteristics when they are related entities. At no time during the year has the credit risk percentage exceeded 5% of the gross monetary assets.

(i) Liquidity risk management

The ultimate responsibility for liquidity risk management rests with the Board of Administration, which has built a proper liquidity risk management framework regarding the Group funds' short, medium and long term insurance and the liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, backup banking facilities and loan facilities, by continually monitoring cash flows and matching the maturity profiles of financial assets and liabilities. Note 32 includes a list of additional facilities not drawn, available to the Group in order to further mitigate liquidity risk.

27. FINANCIAL INSTRUMENTS (continued)

(j) Fair value of financial instruments

The fair values of financial assets and liabilities are determined as follows:

- the fair value of financial assets and liabilities with standard terms and conditions and traded on active liquid markets are determined by reference to quoted market prices;
- the fair value of other financial assets and liabilities (excluding derivative instruments) is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions; and
- the fair value of derivative instruments is calculated using quoted prices. Where such prices are not available, use is made of discounted cash flow analysis using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives.

The financial statements include unlisted share holdings, measured at fair value. The best estimate for fair value is determined using the historical cost of shares.

The financial instruments in the balance sheet include trade receivables and other receivables, cash and cash equivalents, short and long term borrowings and other liabilities. The estimated fair values of such instruments approximate their carrying values. The carrying values represent the Group's maximum exposure to credit risks related to existing receivables.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2016

27. FINANCIAL INSTRUMENTS (continued)

The carrying values of the Group's currencies expressed in monetary assets and liabilities as at the reporting date are as follows:

2017	EUR		USD		Leu

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017**
27. FINANCIAL INSTRUMENTS (continued)

The Group is mainly exposed to EUR and USD exchange rates. The following table details the Group's sensitivity to a 10% increase and decrease in the LEI against the relevant foreign currencies. 10% is the sensitivity rate used when reporting foreign currency risk internally to top management and represents management's estimate of the reasonably possible changes in foreign exchange rates. The vulnerability analysis includes only outstanding foreign currency denominated in monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. In the following table, a negative number below indicates a decrease in profit, whereas the LEI weaken 10% against the EUR/USD. For a 10% strengthening of the LEI against the EUR/USD, there would be an equal and opposite impact on the profit and other equity, and the balances below will be positive. Changes will be attributable to the exposure related to EUR borrowings at the end of the year.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017**

29. ACQUISITION OF SUBSIDIARIES

In December 2017, the Group acquired a new subsidiary, PROJECT ADVICE SRL.

PROJECT ADVICE SRL is a company established in 2010, where SC Romcarbon SA indirectly holds 99%. The company's main office is located in Iasi, Calea CHISINAULUI, Nr. 29, Pavilion Administrativ A, camera nr. 2, Etaj 1. The company's object of activity is – NACE code 7022 - Business and other management consultancy activities.

30. DISPOSAL OF SUBSIDIARIES

In 2016, Greensort Recycling SRL was de-registered from the Trade Registry.

In July 2016, Next Eco Recycling SA was assigned.

31. CASH ON HAND AND AT BANKS

Within the meaning of statement of cash flows, cash and cash equivalent include petty cash and bank accounts. Cash and cash equivalents at the end of the financial year, as presented in the statement of cash flows, may be reconciled with the corresponding elements of balance sheet, as follows:

	December 31, 2017	December 31, 2016
	<i>thousand LEI</i>	<i>thousand LEI</i>
Cash at banks	5,852	11,363
Cash on hand	36	55
Cash equivalents	109	126
Total	5,997	11,544

32. INVESTMENT PROPERTY

	December 31, 2017	December 31, 2016
	<i>thousand LEI</i>	<i>thousand LEI</i>
Land	32,428	31,399
Buildings	17,432	14,281
Total investment property	49,860	45,680

The Parent holds non-current fixed assets (land and buildings) located in Iași, Ștefănești and Buzău in amount of LEI 49,860 thousand as at December 31, 2017 and in amount of LEI 45,680 thousand as at December 31, 2016.

Both the land and the building were registered at the fair value of investment property based on the report of the independent valuator, prepared as at the end of every year. Investment property is not subject to depreciation.

As at December 31, 2017, the Company valued investment property and the result of the valuation, in amount of Lei 1,490 thousand, was registered to profit or loss.

If the Company had valued the investments at cost, their value as at December 31, 2017 would have been Lei 38,122 thousand.

33. COMMITMENTS AND CONTINGENCIES**Potential tax liabilities**

In Romania, there are agencies authorized to conduct controls (audits). Such controls are to a great extent similar to those conducted in other countries by tax authorities, but may extend to other legal or regulatory fields in which the Romanian authorities may become interested. The Group is likely to continue to be subject to periodic controls for breaches or alleged breaches of new and existing laws and regulations. Although the Group may challenge the alleged breaches and penalties when the management considers that it is entitled to, the adoption or implementation of laws and regulations in Romania might have a significant effect on the Group. The tax system in Romania is under continual development, being subject to constant interpretations and changes, often retroactive. In Romania, the fiscal year remains open for fiscal verification for 5 years.

The Group's administrators consider that the Group's tax liabilities have been calculated and recorded according to the legal provisions.

Transfer pricing

The Romanian fiscal legislation has provided rules on transfer prices between related parties ever since 2000. The current legislative framework defines "market value" for transactions between related parties, as well as the methods to establish transfer prices.

Therefore, the fiscal authorities are expected to initiate thorough verifications of transfer prices, in order to make sure that the fiscal result and/or the customs value of imported assets are not distorted by the effect of prices practiced in connection to related parties. The Company may not quantify the outcome of such verification.

Environmental matters

The Group's core activity has inherent effects on the environment. The effects of the Group's activities on the environment are monitored by local authorities and the Group's management. Therefore, no provisions have been recorded for any obligations, not measurable at present, regarding the environment or the required remedy works.

34. SUBSEQUENT EVENTS

ROMCARBON S.A.

In the meeting of the Board of Directors of Romcarbon of December 2017, it was decided to seek a potential buyer for the Company's assets located in Iasi, Calea Chisinaului nr. 29, Iasi county, in surface area of approximately 7.3 ha, at a price of no less than EUR 7.3 million, VAT excluded, a decision which will be ratified by the General Meeting of Shareholders. The mortgages established on such real estate will be lifted according to the resolution of the Board of Directors of January 2018.

LIVINGJUMBO INDUSTRY SA

On January 19, 2018 a loan contract was signed with UniCredit Bank SA for a credit line at a value of EUR 1,000,000 and due on July 18, 2018.

To secure this loan, a mortgage was instituted on a real estate (land + buildings) in surface area of 38,235 sq m owned by SC LivingJumbo Industry SA, a mortgage on 4 machinery owned by SC Romcarbon SA, a mortgage of subsequent rank on inventories in maximum amount of EUR 2,000,000 owned by SC Romcarbon SA, a mortgage on the receivables arising from the performance of commercial contracts between LivingJumbo Industry SA and certain trade partners and a mortgage on all present and future accounts, in lei or foreign currency opened by LivingJumbo Industry SA with the bank.

The consolidated financial statements were approved by the Board of Administration and were authorized for issuance on April 2, 2018.

INTERNAL CONTROL

Internal control aims at ensuring a rigorous and effective management of the Group's activity through the adoption by the Group's member companies of policies and procedures which ensure consistency of objectives, identify the key factors of success and communicate to the entity's managers in real-time information on performance and perspectives.

Internal control is organized so as to comply not only with financial-accounting regulations, but with all regulations, such as environmental, occupational health and safety, emergency situations, the Civil Code.

The Group's organization chart establishes the hierarchical levels of responsibility and authority existing and allows knowledge of functional and managerial aspects of the organization.

The Boards of Administration are independent of the management at the organization and their members are involved in management activities, which they supervise carefully. The Boards of Administration of the Group's member companies delegates to the managers responsibilities regarding internal control and make systematic and independent assessments of the internal control system established by management.

Internal (financial) audit has an assistance function that must ensure management that each of the companies' internal procedures are implemented and adhered to by all departments involved.

Regular or permanent check and assessment according to the Program approved by each of the Group companies' management of the quality operation of internal control is performed to determine whether internal controls are applied according to the procedures and if they are modified appropriately when the situation requires.

Internal control establishes methods by which employees are assessed, trained, promoted and rewarded as staff represents an essential component of internal control. The organizational chart, the internal regulations (IR), job descriptions are updated according to the modifications.

Each of the Group companies' management has taken action in order to remove or reduce incentives that could cause employees to engage in dishonest, illegal or immoral activities. They are found in the Internal Regulations and other regulations issued but also in personal examples.

Management is in charge of the filling of specific positions by competent personnel who has the knowledge and skills to perform the tasks characteristic of each function.

The Group faces various risks arising from the external or the internal environment that must be managed appropriately by management. Risk identification and analysis is an ongoing process and a critical component of an effective internal control. Some of the examples are the Group member companies' inability to achieve the set objectives, staff quality, importance and complexity of basic economic processes, introduction of new information technologies, entry of new competitors on the market etc.

Management identifies and assesses these risks and formulates specific measures to reduce the risk at an acceptable level.

S.C. ROMCARBON S.A.

For an adequate split of the responsibilities (tasks) in order to prevent significant frauds and errors, the Company applies:

- The division of the administration of assets to avoid the risk of theft;
- The division of the authorization of the operations of assets administration;
- The separation of the IT tasks from the tasks of the persons outside the IT system (the tasks related to the design and control of accounting software are separated from the ones related to the update of information)

Inside each Group member company, there are three different functions, whose separation (their aggregation is not admitted) represents the grounds for mutual control between departments and performers, namely:

- achievement of the objectives of the organization
- preservation of the assets of the organization
- the accounting function;

For an efficient internal control, the same person cannot fulfill all such roles. If any two of such roles are fulfilled by the same person, the risk of error and fraud is higher.

Most of the operations and transactions involve at least two of the presented roles; as result, errors and frauds can be easily detected, because they result in a lack of correlation between the statements, between the departments or performers.

The internal accounting and financial control is a major element of internal control inside the entity and it relates to the entire processes of obtaining and communicating the accounting and financial information in order to obtain reliable information and in accordance with legal requirements.

The internal accounting and financial control focuses on providing:

- compliance of the accounting and financial information with the applicable rules;
- application of the management instructions according to this information;
- protection of the assets;
- prevention and detection of accounting and financial frauds and irregularities;
- reliability of the information disseminated and used internally for controlling purposes, to the extent it contributes to preparing published accounting and financial information;
- reliability of the annual published financial statements and other information communicated to the market.

All intern control activities seek to perform a permanent and periodical review of activities, in order for the management to identify the best solutions for its decisions for increasing the performance of the company and become more competitive on the market.

S.C. ROMCARBON S.A.

THE GROUP'S OBJECTIVES AND POLICIES REGARDING RISK MANAGEMENT

The parent company implemented risk management in accordance with Standard SR EN ISO 31010 – Risk Management. Risk Assessment Techniques, identifying and assessing risks involving every operating department in the organization. The Company drafted a Risk Register for every operating department, the Organization's Risk Register and the Risk Treatment Action Plan.

Capital risk

The management of the Group's risk also consists in a regular review of the capital structure. The Group will balance the general structure of its capital by dividend payment, issuance of new shares and redemption of shares.

The management of the Group's risk also consists in a regular review of the capital structure. The Group will balance the general structure of its capital by dividend payment, issuance of new shares and redemption of shares.

Financial risks

The Group's treasury function supplies services necessary to the business, coordinates access to national and international financial market, monitors and manages financial risk related to the Group's operations through reports on internal risks, analyzing exposure by the degree and extent of risks.

Liquidity risk

Liquidity risk, also called funding risks, is the risk for a company to face difficulties in raising funds to fulfill its commitments associated to the financial instruments.

The ultimate responsibility for liquidity risk management rests with the Board of Administration, which has built a proper liquidity risk management framework regarding the Group funds' short, medium and long term insurance and the liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, backup banking facilities and loan facilities, by continually monitoring cash flows and matching the maturity profiles of financial assets and liabilities.

Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The management monitors the Group's exposure and the credit ratings of its contractual counterparties.

Market risk

Given the international climate, where the financial crisis has affected in recent years the markets where the Group operates, in 2017 the Group managed to obtain a turnover of lei 254,397 thousand, and for 2018 it sets itself to maintain a growing trend by 10-15% as compared to last year. However, the Group's management cannot predict the changes that may occur on domestic and foreign markets or the effects thereof on its financial statement, operating results and cash flows.

S.C. ROMCARBON S.A.

SUBSEQUENT EVENTS

ROMCARBON S.A.

In the meeting of the Board of Directors of Romcarbon of December 2017, it was decided to seek a potential buyer for the Company's assets located in Iasi, Calea Chisinaului nr. 29, Iasi county, in surface area of approximately 7.3 ha, at a price of no less than EUR 7.3 million, VAT excluded, a decision which will be ratified by the General Meeting of Shareholders. The mortgages established on such real estate will be lifted according to the resolution of the Board of Directors of January 2018.

LIVINGJUMBO INDUSTRY S.A.

On January 19, 2018 a loan contract was signed with UniCredit Bank SA for a credit line at a value of EUR 1,000,000 and due on July 18, 2018.

To secure this loan, a mortgage was instituted on a real estate (land + buildings) in surface area of 38,235 sq m owned by SC LivingJumbo Industry SA, a mortgage on 4 machinery owned by SC Romcarbon SA, a mortgage of subsequent rank on inventories in maximum amount of EUR 2,000,000 owned by SC Romcarbon SA, a mortgage on the receivables arising from the performance of commercial contracts between LivingJumbo Industry SA and certain trade partners and a mortgage on all present and future accounts, in lei or foreign currency opened by LivingJumbo Industry SA with the bank.

President of the BoA,

Chief Executive Officer: Eng. Andrei Radu

Hung Ching Ling

Chief Financial Officer: Ec. Zainescu Viorica Ioana
